

Senior Design Team Peer Assessment Form

Date: 04/07/2017

Project Title: *Enhancing an Out-of-Order Processor for Latency-Critical Applications*

For each team member, including yourself, rate on a 1 to 5 scale how you believe that person performed his or her project duties (0 = *Did nothing*, 1 = *Did very little*, 2 = *Did less than average*, 3 = *Made an equal contribution*, 4 = *Did more than average*, 5 = *Did much more than average*). A number *other than 3* requires explanation on the back of this form.

Contribution	Ronald Macmaster (me)	Abraham Gonzalez	Justin Nguyen	Ryan Syed	Barak Lidsky
Attended Team Meetings	3	3	3	3	3
Available When Needed	3	4	3	3	3
Contributed Useful or Innovative Suggestions	3	3	3	4	4
Contributed to Project Mgmt. and Control	3	4	4	3	3
Did Share of Assigned Technical Work	4	4	3	3	3
Assisted in Preparation of Written Reports	3	3	3	3	3
Assisted in Preparation of Oral Reports	3	3	3	3	3
Overall Evaluation of Team Member Contribution.	3	3	3	3	3

Explanations:**Contributed Useful or Innovative Suggestions:**

Ryan and Barak contributed a lot of insightful information on the hardware aspects of computer architecture designs. Abraham contributed some useful lecture content on Simultaneous Multithreading

Contributed to Project Management and Control:

Abraham wrote a lot of the team emails to our mentor and teaching assistants. Justin scheduled weekly team meetings with TA Steven Stone.

Did Share of Assigned Technical Work:

Abraham and I spent a lot of extra time compiling and setting up the simulation environment. I looked over the source code a lot. Abraham helped set up the benchmarks.

Assisted in Preparation of Written Reports:

Everyone contributed equally to the written reports. Everyone attended weekly meetings to discuss the prior art written report.
